DETAILED ACTION

1. Claims 1-4 and 17-20 are allowable. The restriction requirement between species, as set forth in the Office action mailed on April 13, 2007, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim. Claims 5 and 6, directed to a non-elected species, are no longer withdrawn from consideration because the claims requires all the limitations of an allowable claim. However, claims 12-14, directed to another non-elected species, are withdrawn from consideration because they do not require all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided

Art Unit: 2814

by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 12-14 directed to a species non-elected without traverse. Accordingly, claims 12-14 have been cancelled.

Allowable Subject Matter

3. Claims 1-6 and 17-20 are allowed.

The following is an examiner's statement of reasons for allowance:

With respect to claims 1-6 and 17-20, the prior art of record neither anticipates nor renders obvious all the limitations of the base claim 1, including, a semiconductor apparatus comprising: a semiconductor chip, a first and second base material, and a heat conducting member, wherein the heat conducting member and the second base material are disposed on the upper surface of the chip and the first base material is connected to a lower surface of the chip; wherein an ohmic electrode is disposed on an entire surface of the lower surface of the chip; wherein a first intermediate member made of an electrically conductive material and a second intermediate member made of a material having lower heat conductivity than said first intermediate member are provided between the first base material and the chip, and an area where the second intermediate member touches the lower surface of the chip is larger than an area where the first intermediate member touches the lower surface of the chip. Claims 2-6 and 17-20 depend from claim 1, and thus, are also allowed for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
